

FEBRUARY 2001

Volume 17, Number 1

(ISSN 8756-1417)

Journal of Ship Production

- 1 Enabling the Shipbuilding Virtual Enterprise**
by Richard W. Bolton, Paul Horstmann, Darcy Peruzzotti, and Tom Rando
- 12 MAAST Pilot: A Prototype of Collaborative Environments**
by Carey Filling, Greg Diggs, and David Helgerson
- 27 Design for Production: Principles and Implementation**
by Richard Lee Storch, Smith Sukapanpotharam, Bill Hills, George Bruce, and Malcolm Bell
- 40 Optimization of a Working Route Using the Genetic Algorithm**
by Yasuhisa Okumoto
- 46 Simulation-Based Evaluation of Productivity for the Design of an Automated Fabrication Workshop in Shipbuilding**
by Jong Gye Shin and Sug Je Sohn
- 60 Product-Oriented Design and Construction (PODAC) Cost Module — An Update**
by John C. Trumbule, John J. Dougherty, Laurent Deschamps, Richard Ewing, Charles R. Greenwell, and Thomas Lamb
