

PRESS RELEASE

GUIDELINES FOR SITE SPECIFIC ASSESSMENT OF MOBILE JACK-UP UNITS

The Society of Naval Architects and Marine Engineers has published a revised edition of the technical bulletin Guidelines for Site Specific Assessment of Mobile Jack-Up Units. The updated bulletin is available as a CD and contains the following documents, revised as indicated:

- T&R 5-5 – Guideline for Site Specific Assessment of Mobile Jack-Up Units – (First Edition – May 1994)
- T&R 5-5A – Recommended Practice for Site Specific Assessment of Mobile Jack-Up Units – (First Edition – Rev 2, January 2002)
- Commentaries to Recommended Practice for Site Specific Assessment of Mobile Jack-Up Units – (First Edition – Rev 2, January 2002)
- Example (“Go-By”) Calculation Using Recommended Practice for Site Specific Assessment of Mobile Jack-Up Units – (Preliminary Issue – May 1994)

These documents have been produced by a joint industry-funded project. They have been published by SNAME for the benefit of naval architects and structural, ocean, and marine engineers involved with the world-wide assessment of mobile jack-up units.

The new publication is identified as Technical and Research Bulletin 5-5A. It is a 550-page report issued as a CD. It may be ordered through the SNAME web site (www.sname.org) or by contacting Claudio Pujols (cpujols@sname.org) or 201-798-4800, x-3044) for \$120 (\$60 for SNAME members).
