

# Call for Papers

## Marine Environmental Engineering Technical Symposium (MEETS) 2003

Sponsored by:

**The American Society of Naval Engineers and  
The Society of Naval Architects and Marine Engineers**

**To be held in Arlington, Virginia, 21 – 22 August 2003**

Technical papers suitable for both group presentation and publication are sought concerning the general topic of marine environmental engineering worldwide. This subject includes all aspects of naval and commercial environmental engineering and management from future concepts to program implementation. Some themes of current interest are:

- **Protecting our shores from Aquatic Nuisance Species**
- **Ship solid waste disposal methods**
- **Shipyards - Doing their part in Environmental Management/Compliance**
- **Cruise Ship Industry Initiatives**
- **Ship Recycling - How do we responsibly get rid of these old ships at a reasonable cost?**
- **Future Ship Integration Environmental Friendly Concepts**
- **Hazardous Materials Management**
- **Environmental Law and Maritime Policies - What the Future Holds**
- **Ship Energy Conservation Initiatives**
- **Environmental Factors in Ship Life-Cycle Costing**
- **Pollution Prevention Afloat**
- **R&D - Ship Emission and Discharge Reduction/Control**
- **US Government Ships - Uniform National Discharge Standards (UNDS) Implementation**
- **Port Design - Waste Handling/Recycling Factors**
- **Classification Societies' Role in Environmental Management**
- **Oil Pollution - Guarding our Shores through Spill Prevention**
- **ISO 14001 - Marine Industry Applications**
- **Complying with more stringent Engine Emissions**
- **Biological approach to Wastewater/Oily Waste Treatment**
- **Offshore Oil Drilling without Spilling**

Submit a one-page abstract/proposal to the following by e-mail (preferred), mail, or fax before **July 31, 2002**. Proposals should include:

- Paper title.
- Name(s) of principal author(s) and organization(s).
- Primary point of contact, including address, telephone and facsimile numbers, and e-mail address.
- Text providing sufficient detail for the Technical Papers Committee to perform a review. The text should include a problem statement or introduction, an outline of the key points to be made in the paper, and conclusions or recommendations.
