

**27th International Conference on
Offshore Mechanics and Arctic Engineering
Estoril, Portugal - 15-20 June 2008**

Announcement and Call for Papers

It is a pleasure to announce that the **27th International Conference on Offshore Mechanics and Arctic Engineering (OMAE 2008)** will be held at the **Estoril Congress Centre**, in **Estoril, Portugal** on **15-20 June 2008**.

The conference will consist of **nine traditional Symposia**:

- SYMP-1: Offshore Technology
- SYMP-2: Structures, Safety and Reliability
- SYMP-3: Materials Technology
- SYMP-4: Pipeline and Risers Technology
- SYMP-5: Ocean Space Utilization
- SYMP-6: Ocean Engineering
- SYMP-7: Polar and Arctic Sciences and Technology
- SYMP-8: CFD and VIV
- SYMP-9: Petroleum Technology

and complemented by **four Special Symposia**:

- SYMP-10: Nick Newman Symposium on Marine Hydrodynamics
- SYMP-11: Yoshida & Maeda Special Symposium on Ocean Space Utilization
- SYMP-12: Offshore Renewable Energy
- SYMP-13: Offshore Measurement and Data Interpretation

For more information on the symposia, take a look at the OMAE2008 website at (<http://www.asmeconferences.org/OMAE08>).

Abstract Submission

Authors should submit a 400 word text-only abstract through the OMAE2008 website.

For assistance with submitting your abstract online, please view the author help manual.

Conference Chairman – Prof. Carlos Guedes Soares (guedess@mar.ist.utl.pt)

Information is available from the **Conference Secretariat**: omae2008@mar.ist.utl.pt.
