Subject: Documentary about Ships

My name is Annie Tang and I work for a television production company in Los Angeles, CA.

We're looking for someone who is a boat enthusiast and is knowledgeable about the mechanics of boats and ships (preferably from 1900s on) to host a brand new documentary series currently in development at GRB Entertainment. This person will need to look mid-twenties to late-forties, charismatic, articulate and have a genuine love for boats and history.

Please let me know if you, or anyone you know, a student or colleague, might be interested in this project. I look forward to hearing from you.

Sincerely and Respectfully,

Annie Tang
